CULTIVATOR. AND PHISANVALUABLE MACHINE, the recent invention of Mr. J. B. UNDERWOOD, of Fay-A citeville, N. C., bids fair to be the Cotton Planter what the McCormick Reaper and Mower is to the Western Farmer. It, at one operation, chops, bars, weeds and dirts the catton more effectually than can be done by the hoe, and in about one-tenth of the time. As a labor-saver, it is pre-eminent. It, with one man and horse, does the work of from two to four horses, and from six to ten men, and, as has already been stated, its work is superior to that done by the hoe. It has received the First Premium at every Fair at which it has been ex hibited—among these the North Carolina State Fair, Weldon Fair, the Cumberland County Fair, and at the Georgia State Fair it took the Gold Medal as the most important invention pertaining to Agriculture.
